The News is a day late this week on account of waiting for election returns and to report the doings of the Kaiser when he reads the demands of the Allies. These two articles of news are of the greatest importance at this time.

Henry Long, brother of Adam Long, died October 31, at noon, at Ellison, Nebraska, of influenza. Amos Long of Lisco, Colo., went after the body which was taken to Lisco for burial. Mr. Long was a resident of this county for many years.

Mrs. Del. Martz and son, Jack, of Moberly and Mrs. Martz's mother, Mrs. Frankie Rucker, arrived last week in this city to visit at the home of Mr. and Mrs. C. V. Robinson. Mrs. Rucker will remain with her daughter, Mrs. Robinson, and make her home in Tucumcari.

There are a few who have failed to pay their subscription and it has been necessary to cut them from the list. The News is desirous of keeping a big list and will be glad to put these subscribers back on the list if they will pay back subscription and in advance as far as possible.

The House Movers are here from Amarillo. They finally secured a car large enough to bring their outfit and it will arrive on the T. & M. Friday. If you have a house you want moved now is your chance to have it moved by men who have the out-fit and have had experience in doing that kind of work.

Mrs. Herman Gerhardt has been in Newkirk this week assisting in caring for Mr. and Mrs. Leon Jones and family, and Mrs. Rusby who were sick with the "flu." All of the family are reported improving except Mrs. Rusby who has pneumonia and has been quite low. She was reported better Thursday.

Goodman's Cash and Carry Store is about ready for occupancy. It is painted white throughout and the inside shelving makes shopping easy. Read ad. in another column and watch the News for future announcements. The store will be in charge of a live wire who promises to have many surprises for Tucumcari buyers.

Mr. and Mrs. A. J. Coffield were Tucumcari visitors from Montoya the first of the week. Mr. Coffield was in town several days last week taking treatment for blood-poison. While he was cranking his Ford he scratched his hand on the license plate. A few hours later blood poison set in and he came near losing his hand and arm. The News is glad to report the infection gone and the hand saved.

Many farmers were in from the plains after wheat the first of the week. They are going the limit this year as they have confidence in the outcome next year on account of the splendid season in the ground. The largest acreage ever sown is already in the ground and many hundred acres more will be put in. Another carload of seed wheat is expected any day by the elevator and this has already been engaged by the farmers.

If you desire to send a Christmas package to some boy in France it must be done through the Red Cross. Each soldier has been provided with one Christmas parcel coupon, or label, which will be forwarded by him to the person in the United States from whom he wishes to receive his Christmas package. If labels are lost they cannot be duplicated. The package must be left in the custody of the Red Cross for inspection, which will deliver it to the postal authorities. Remember, the final date for presentation to the Red Cross Chapter or Branch for inspection is November 20.

John Pring has come in two days straight with 20 quails—the limit. He has a way all his own of slipping up on the birds. The "flu" does not seem to have had any effect upon his marksmanship as he claims to carry no salt to throw on the tails of the birds.

The soldiers rest room is becoming popular. Last week the News said the building was donated to the ladies free by the owner, Mrs. Curren, of Clovis. This was a mistake, as they are paying rent on the building until they can find more suitable headquarters.

John Eager, county treasurer, asks the News to thank his many friends who so earnestly supported him in the election. They have shown by their ballots that they have confidence in his ability to handle the public money for the county. Mr. Eager appreciates the confidence shown in him and says he will continue to do his very best to give entire satisfaction in his office during the next two years.

The big flag on corner Main and Second streets still hangs at half mast. It will be taken care of. Mayor James is looking for someone who will attempt straightening Old Glory so she will fly at the top of the pole when Germany signs the armistice and the World War is stopped. Tucumcari will fly another honor flag shortly in honor of going over the top with the Fourth Liberty Loan.

Reports over the county say this city is covering up and not giving out true reports about the deaths from "Flu" in Tucumcari. They say there are at least six deaths a day here. The News has given a short report of every death reported and has kept tab on the deaths occurring in town. Last Sunday was the banner day for deaths in Tucumcari, there being four—Pete Peggerman of Quay, Mrs. Wood, and two Spanish-Americans, one of them being a three-year-old boy six miles southwest of town. There have been many bad cases and there have been a number of new ones this week but the physicians are doing a great work and have lost but a few cases by death.

WOMEN ENLIST IN BATTALION OF LIFE

Sunshine Division of Home Service Rivals Battalion of Death in Real War Work.

Russia's Battalion of Death made its women immortal by death-defying action at the front. America's Battalion of Life bids fair to merit immortality by its life and strength giving action in the home trenches, connecting directly with the men who go over the top.

A new kind of women's army has come into being. It is called the "Sunshine Division." It started under unusual circumstances. Margaret Woodrow Wilson, the president's daughter, known for her patriotic war service; her aide, Major Onkes, and a small group of friends, including Miss Marjorie Brown of Atlanta, Ga., daughter of one of the leading men of the south, and a relative of the president, were discussing women's part in the war and the importance of enlisting the effort, talent, and activity of every woman in the country. The need of organization and direction of that time and talent not already devoted to definite war work was recognized, and out of the discussion came plans for conserving the patriotic effort of every patriotic woman, and more especially the young women of the country. The "army" to be recruited was designated the "Sunshine Division." Its scope of service is limited only by the ability of the enlisted women to serve, and there is no woman ineligible for service except she who is already doing her utmost to help win the war. Particulars are available from Maj. A. P. Onkes, now stationed at United War Work headquarters, Dallas, Tex.
